

( Atlantic North Ocean General Trading L.L.C )

## About

# ANO G.Trading LLC.

- Since its inception in 2007, **ANO** . has grown considerably to become a leading solution provider in all areas of electrical,IT, and mechanical engineering. We owe our success to our vast and diversified range of products, expert knowledge of the markets and a reputation for superior customer satisfaction.
- **ANO** prides itself in being complete solution providers in the design, supply, installation and maintenance in the different divisions Like :
  - Electrical Systems ( Lighting Fixtures, Control Panels, wiring devices, ect .. )
  - Security Systems ( CCTV, Access Control, Blocker, Scanners, Safety Systems )
  - Computer site preparation works and all types of related activities including networking and structured cabling.
  - Solar systems including, UPS, chargers, batteries, frequency converters and generators
  - Close control A/C units and industrial HVAC systems.
  - Cabling Systems : Fiber optic, coaxial, control, data, fire resistant and instrumentation cables
  - Low current systems including fire alarm, CCTV, access control, public address, MATV , Nurse call system , and all types of security systems
  - Fire Systems and fire fighting .
  - Audio, video systems; including multimedia presentation, and projection systems.
  - Decorative Systems ( Flooring , Ceiling, etc ...
  - Broadcasting | Telecommunications | Hospital Equipment's | Airports Ground Equipment's ...

## Our Mission

- It's a simple formula, really. When it comes to customer satisfaction, we get to the heart of the matter. We listen to the clients; understand their needs; and work together to find the right solution at the right cost. We provide whatever is needed when it comes to designing, commissioning, training, maintenance, and after sales service. Quality and partnership are our guiding principles.

## Our Commitments of quality

To satisfy customers and exceed their expectations", this is our commitment.

We focus on providing:

- Quality services and solutions
- Expert advice
- Superior customer/client relationship.

We constantly strive to bring new ideas, innovations and the latest technology to the market in a timely fashion, in order to provide our customers with a greater business advantage.

Moreover, we have successfully responded to different business requirements of major sectors including:

- Healthcare
- Industrial
- Banking
- Airports
- Telecom
- Commercial
- Education
- Private
- Government

# Fire & Security Solutions

- MATV • CATV • SMATV Fire Alarm Systems CCTV
- Fire Suppression Systems • Access Control • Master

This division provides services of design, engineering, supply, and commissioning of safety, security, and other low voltage systems. We are proud of our experience in fire detection and protection, access control, video security, clock systems and physical security. In addition, this division provides services in public address/paging and SMATV systems.

It is crucial for any company to safeguard its assets, whether it is property or employees. This makes reliance on experts with the technical knowhow in security and safety a priority for any company. With well-known international suppliers along with ANO's experienced staff, the best and most comprehensive systems are put into place. ANO configures the proper design, advises on the best and most reliable products, supplies complete system equipment, and supervises all installation works. At the final stages ANO conducts programming, testing and commissioning for the entire system.

Service in this division as below:

- Fire alarm and detection systems
- Fire suppression systems (NOVEC, FM200, CO2...)
- Clock systems
- CCTV/IPCCTV systems
- Access control systems
- Intrusion alarm systems
- Satellite and Master Antenna systems (MATV-CATV-SMATV)
- Very Early Smoke Detection Aspiration System (VESDA)
- Public Address Systems

AIRPORTS  
ARCHITECTURE  
STREET LIGHTS  
GARDENS

## WE BRING LIGHT TO LIFE

LumosaTouch is an interactive web application to control the Lumosa lights on a simple, fast and userfriendly way. The system can be operated via a PC, tablet or smartphone, the overview of the sport park is clearly displayed so you can control the lights of the fields.

ANO works with products that are energy efficient and environmentally friendly.

Our mission is to provide the customers with high end products meeting the standards of the 21st century, the century of quality.. fast delivery of ordered products

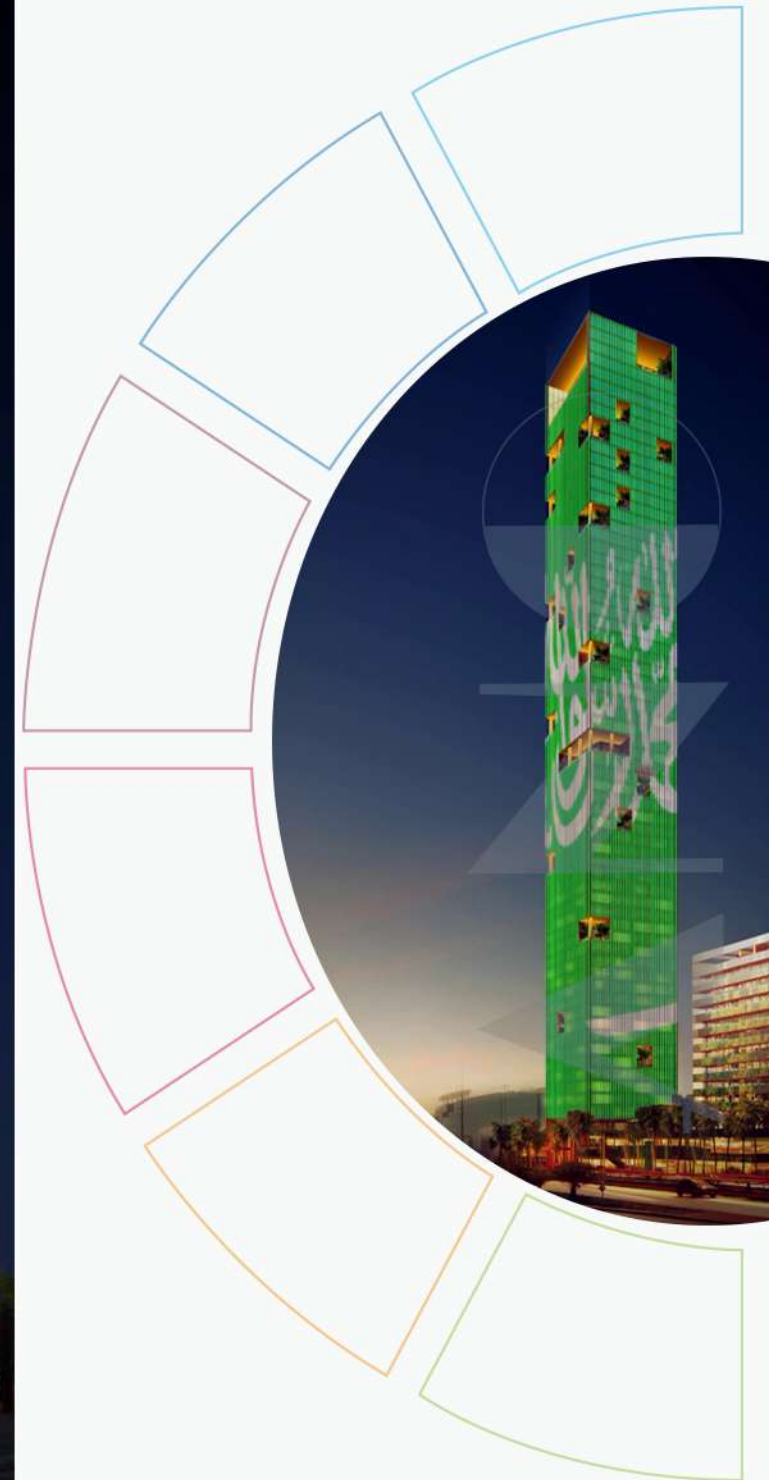

# Façade Lighting

We concern on façade lighting using special high quality products like media mesh, media pixels, linear tubes & wall washer. All of these products are designed for application of architectural media facade & dynamic lighting projects. We are committed to provide a total solution for projects. From design, LED production and Installation guidance, creative effect commissioning.

We do our unique design and façade lighting calculations via professional designers and engineers of different specialized partner manufacturers around the world to generate a very unique design that make our client happy and trusted on us

Digital signage Indoor / Outdoor & Cinema and theaters supports

Professional systems  
for theaters , stages ,  
home cinema .

With us you  
are different

## Cable Solutions

- Data Cables
- Fire Resistant Cables
- Industrial Cables
- Low Current Cables
- Fiber Optics Cables
- Marine Cables

This Division is specialized in the supply and distribution of low current cables such as fiber optics, coaxial, control, data, fire resistant and instrumentation cables. Through its presence in the major business areas of the kingdom along with five showrooms, ANO cable division is in a leading position to cover the demand from various market sectors, obtaining a first rank and preferred business partner of various manufacturers. ANO was also nominated as the best supplier and stock keeper for all types of low current cables in the Kingdom of Saudi Arabia including:

- UTP and STP data cables
- Fiber optic cables
- Audio/video cables
- Instrumentation cables
- BMS and control cables
- Fire retardant cables
- Special cables
- Fiber optic accessories
- Fire Resistant cables are used where required by local fire codes in the wiring of:
  - Fire resistant safety circuits
  - Public address and emergency voice communication systems in high-rise buildings
  - Control and instrumentation services in industrial, commercial and residential complexes
- High-temperature installation conditions

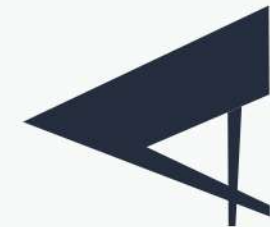

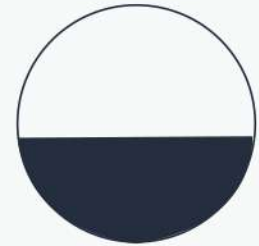

# Security systems

Blockers & Barriers System  
Bollard System  
UNVS System

ANO is one of the most comprehensive supplier of range of X-ray and EDS screening solutions in the industry. Whether you require a system for screening mail and parcels, personal bags at checkpoint security, baggage or freight, ANO has the technology and product to meet your needs.

# Airports Equipment's

Offering a full suite of airfield ground lighting (AGL) project services, from design, supply, implementation and maintenance. airports' technical management teams advise on the best products, equipment and implementation methodologies to meet any airfield development objectives.

## PRODUCTS

Towbarless Aircraft Tractors  
Conventional Aircraft Tractors  
Loaders  
Air Starters  
Ground Power Units  
Passenger Steps  
Military  
Belt Loaders  
Air Conditioners  
Transporters  
Baggage Tractors  
Lavatory and Water Trucks

- Obstruction Light
- Taxiway Light
- Runway Lighting

# Safety Equipment's

LIFE SCIENCES  
HEALTHCARE  
INDUSTRIAL

Protection is at the heart of everything we do But Ansell means more than just safety; our products and services inspire confidence in people everywhere and enable businesses and workers to perform better

# Low Current Solutions

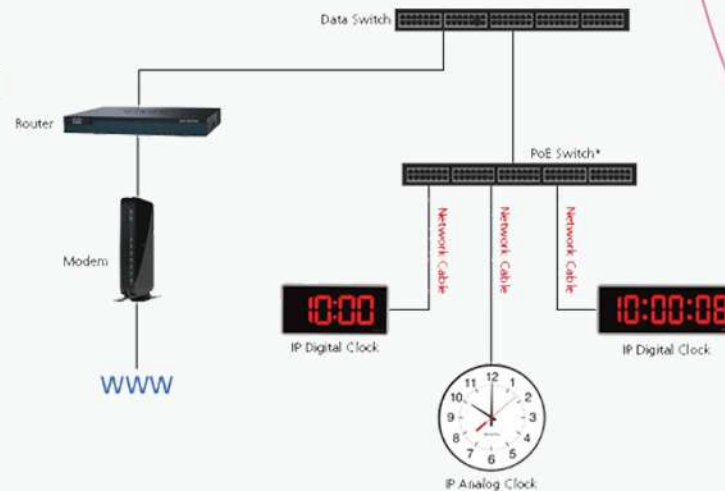

- Nurse Call Systems \* Mass Notification

This division focuses on large projects in the healthcare sector.

Due to the criticality of low current systems applications in hospitals, seamless integration of those systems is a priority. One single point of monitoring and control of the various systems ensures continuity in operation.

In addition to the conventional low current systems (fire alarm, CCTV, Access control etc.) the division is specialized in:

- Nurse Call Systems
- Bed Head Units
- Specialized patients furniture and special lighting equipment for operating and ICU rooms

# Medical Equipment's

ANO provides innovative solutions and products for operating theatres, hybrid operating rooms, ICU/NICU units, surgical preparation rooms and other hospital areas. We with our partner supporters ALVO install ORs and manufacture medical equipment for hospitals all over the world since almost 25 years: modular walls and ceilings, operating tables, surgical scrub sinks, OR doors, medical trolleys, patient transfer systems and furniture. The ALVO Integra solution for complete integration of devices and medical image management enhances workflow efficiency and improves patient care in the OR.

# Maintenance Services

- At **ANO's** , we don't just supply and install products, we also provide a broad range of supporting services to ensure that our customers receive the best possible after sales care.
- With more than 18 years of experience in business critical systems, investing in ANO's maintenance division means that you can benefit from our advice, expertise and technical support whenever you need it. From design and selection, to commissioning and beyond, we make sure your system reduces total cost of ownership, whilst always providing maximum efficiency and longevity. We don't just supply and install products, we build lifelong business partnerships with our customers.
- Our team of experienced engineers and professionals have a wealth of knowledge in all systems and component parts. We offer quick diagnostics and identification of parts needed to fully optimise your system within limited time and with minimal disruption to your business.

# Data Center & Power Solutions

## Providing the Right Power Source

• IT Solutions \* UPS Active \* Filters \* Stabilizers\* Diesel Gensets \* Batteries \* Central Battery Systems

This division provides one of the most reliable power systems by exploiting unrivaled engineering resources and customizing the most efficient power backup solutions. These systems include uninterrupted power supplies, line conditioners, voltage stabilizers, standby generators, batteries and related charging systems.

ANO provides a comprehensive interface between the customer's power source and the business it serves. By understanding our client's power needs, we provide more than just the product, we provide results.

For each customer, we offer tailor-made solutions that will give systems complete protection against all types of power fluctuations, while simultaneously anticipating future needs. We provide and install AC- UPS, DC-UPS, standby diesel gensets, and a variety of standby battery systems.

# Pools Systems

Pool Equipment's  
SPA  
Steam  
Sauna  
Water treatments

We make your dream reality with certikin high quality products of swimming pools

With our supported partner its innovative approach to provides the entire gamut of products that caters to the needs of the Fire Protection and Fire Fighting industry. This makes us a one-stop-shop for customers, fulfilling their end-to-end needs in products, solutions and services for the industry.

# Fire Fighting and Safety systems

Services in many fields like :

Data Centers  
Control Rooms  
Oil and Gas stations  
Sensitive Areas  
Kitchens

## SFFECO FIRE FIGHTING PRODUCTS

- All our products are approved down to the smallest detail for the complete safety and reliability of the system.
- The product range may be for the most sensitive areas.
- For more information, please contact the Sales Marketing Team.

suit every type of pool

## HVAC

Meeting new market demands in a dynamic and flexible way, directing the range to products, integrated systems and developed and competitive services to higher efficiency and low environmental impact, thus pursuing a perfect balance between macroclimates and microclimates. This is our target. We provide high services in supplying and installing systems with high and professional HVAC partners

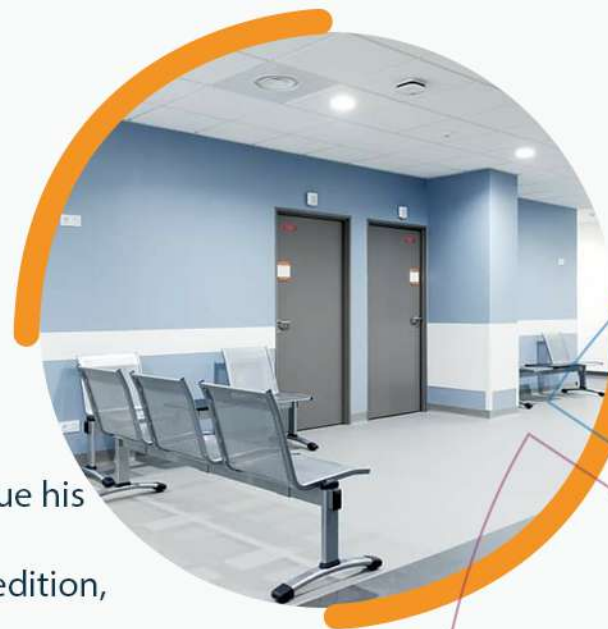

**Gulf Specification:**  
Built to work in harsh-  
climatic conditions

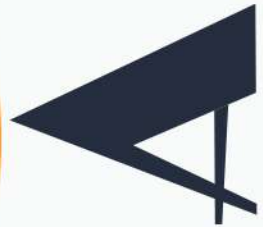

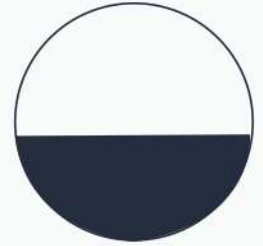

# Flooring and Ceiling

- Laminate flooring.
- Engineering Wood.
- Parquet
- Vinyl.
- Epoxy.

With this edition, the renowned architect continues to pursue his ideas from the first collaboration in 2014: Never before has combinatorics been as profoundly contemplated as in this edition, which increases the possibilities of design infinitely. Parador engineered wood flooring gives you many more ways of practising a discerning, individual furnishing style right from the floor.

كیه مقاوم للمياه

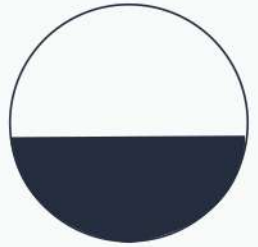

# Decorations and Offices Furniture's

WE DEVELOP AND MANUFACTURE PRODUCTS AND PROJECTS  
FOR THE CONTEMPORARY OFFICES

Our approach to design is based on two principles: research and curiosity.

Consider a good project as a path of dialogue and listening to the needs of the clients, the architects, the workforces.

We listen and translate the needs into products.
